Download Linkly Software from https://www.linkly.com.au/resources-support/software

Begin installation:

Setup - Linkly version 5.4.2
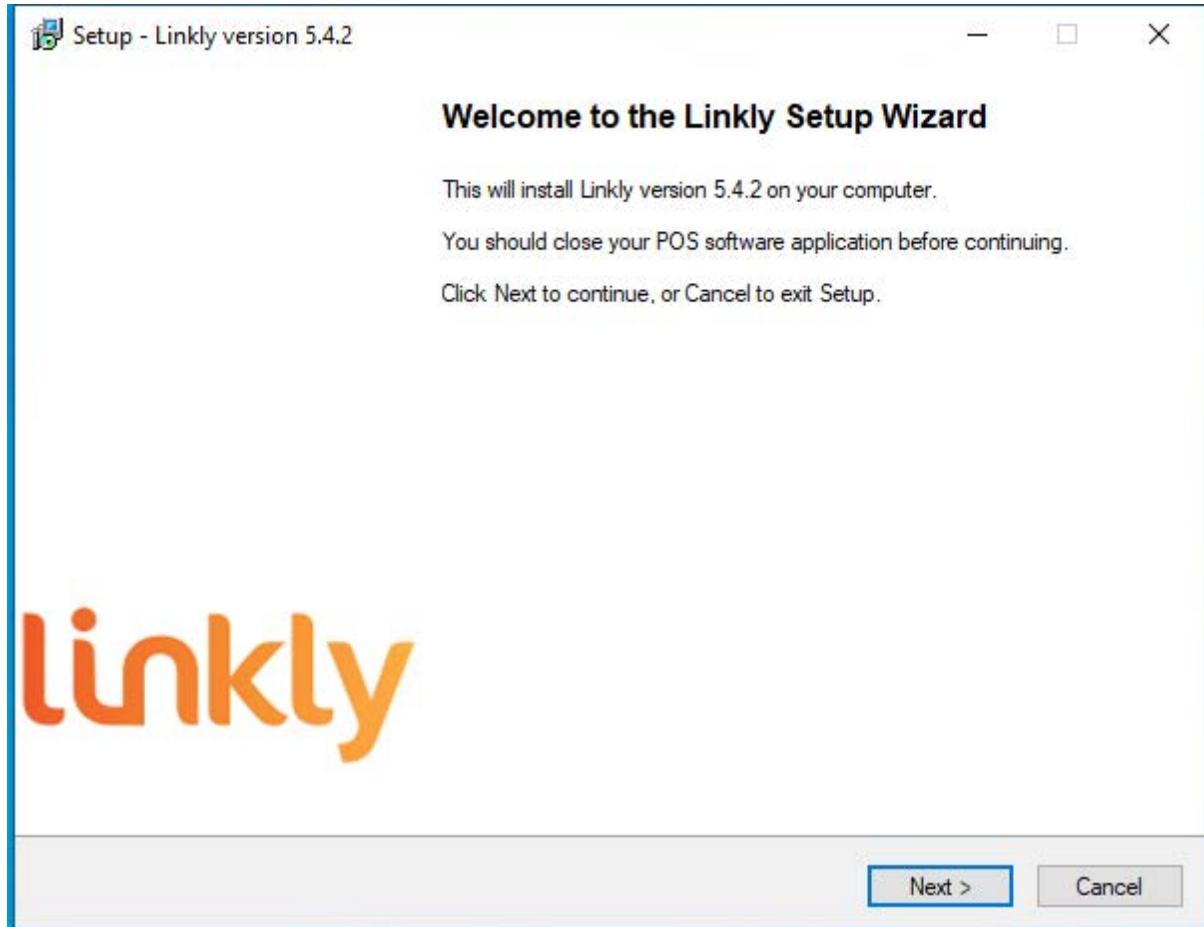

License Agreement

Please read the following important information before continuing.

Please read the following License Agreement. You must accept the terms of this agreement before continuing with the installation.

End-User Licence Agreement - LINKLY Pty Ltd ACN 099 609 284
This End-User Licence Agreement ("EULA") is a legal agreement between you and LINKLY Pty Ltd ACN 099 609 284 ("LINKLY") that covers the LINKLY software product, including any subsequent versions, updates or enhancements ("Software"). By accessing or otherwise using any LINKLY Software, you agree to be bound by the terms of this EULA. If you do not agree to be bound by the terms of this EULA, do not use any LINKLY Software. This EULA does not grant you any other rights but for the ones contained herein.
1. GRANT OF LICENCE: This EULA grants you the right to use the Software only for its intended purpose. You may not sell, resell, licence, rent, lease, lend, or otherwise transfer for value, the use of or installation of the Software. You may not reproduce or redistribute the Software in any form or broadcast it in any media.
2. JOINT RESPONSIBILITIES: Each party represents and agrees:
(a) that it has full power and authority necessary to validly enter into and perform all of its obligations under this Agreement; and

(b) to comply with the other party's reasonable security, confidentiality and operational requirements of which it has been given reasonable notice

Setup - Linkly version 5.4.2

Ready to Install
Setup is now ready to begin installing Linkly on your computer.

Click Install to continue with the installation.

After the software has been installed the Linkly Configuration Wizard will open to guide you through the configuration process.

< Back   Install   Cancel
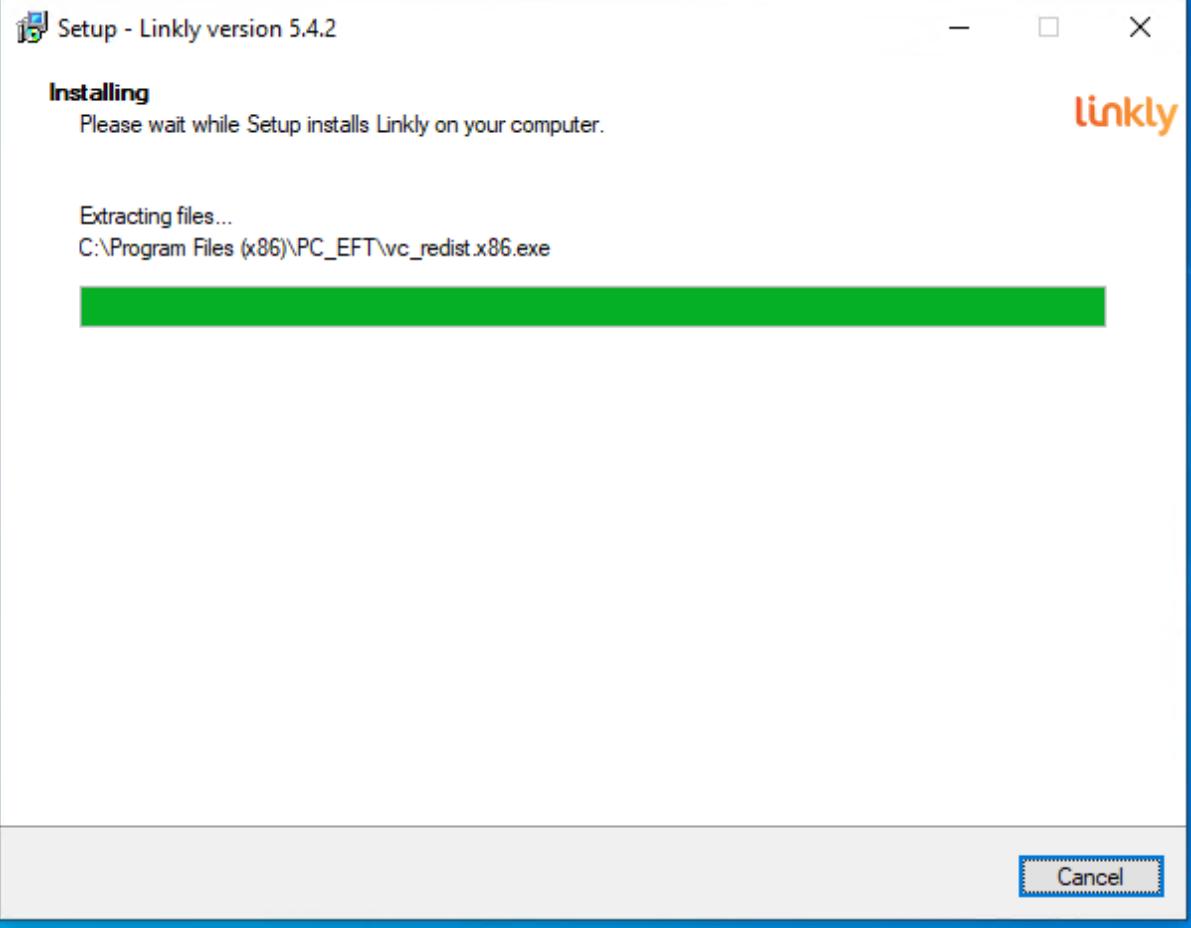

The following window will open:

It is not required for Offline Development, so click exit.

This will complete the installation and then open the Virtual Pin Pad:
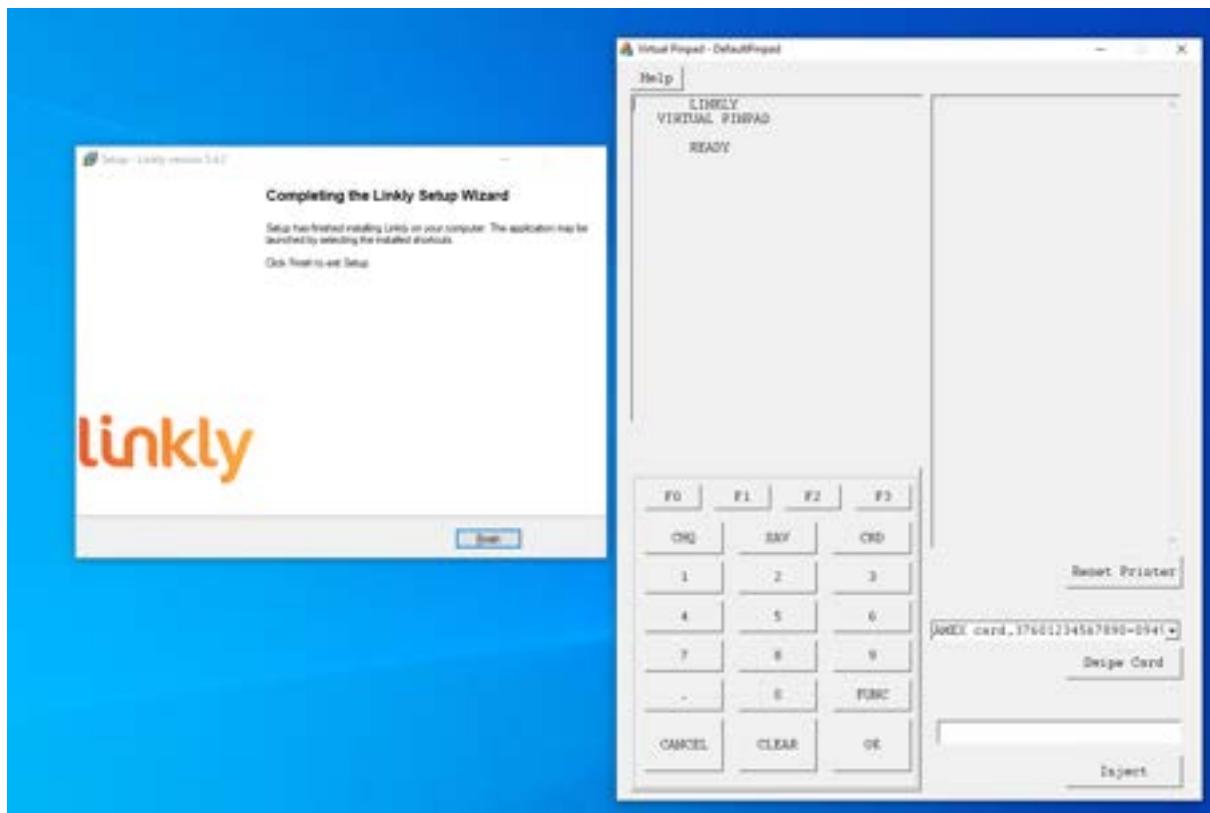

Go to your system tray and open the Client:
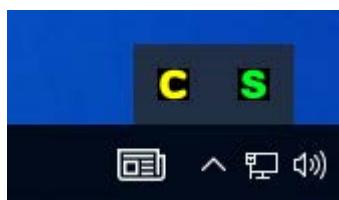

In COM Port, type "TCPIP" and click apply, then close.
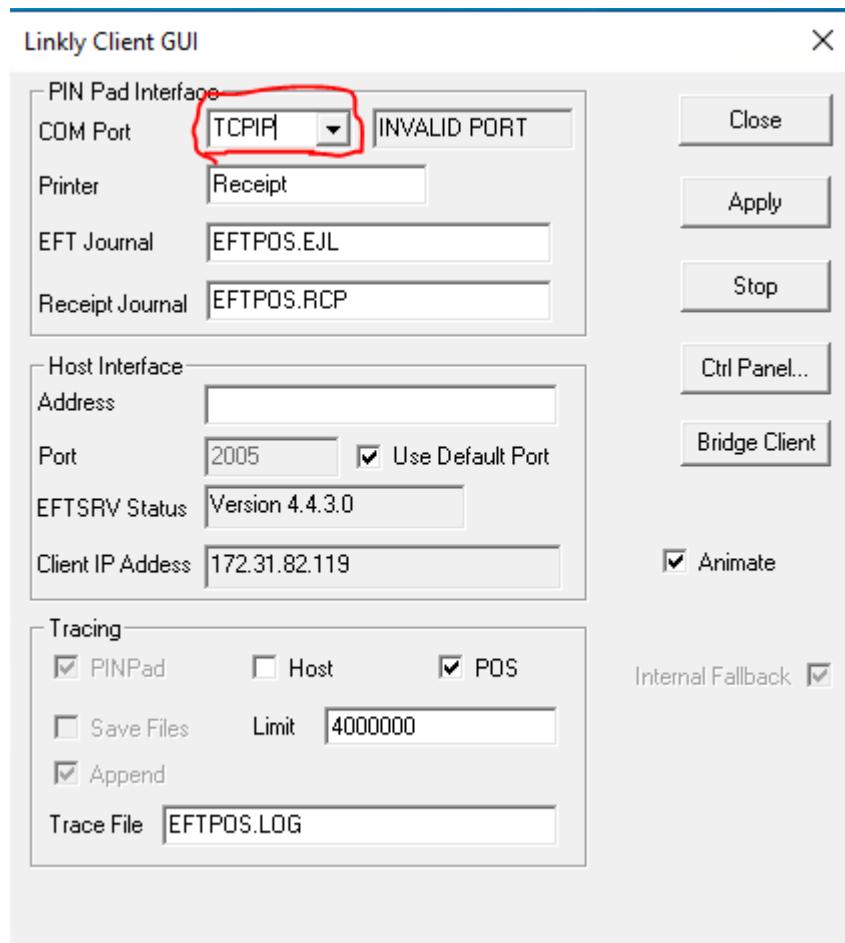

Next, you will need to restart the Linkly Client on Windows Services.

To do this, search for "Services" on your windows search bar and click on icon:
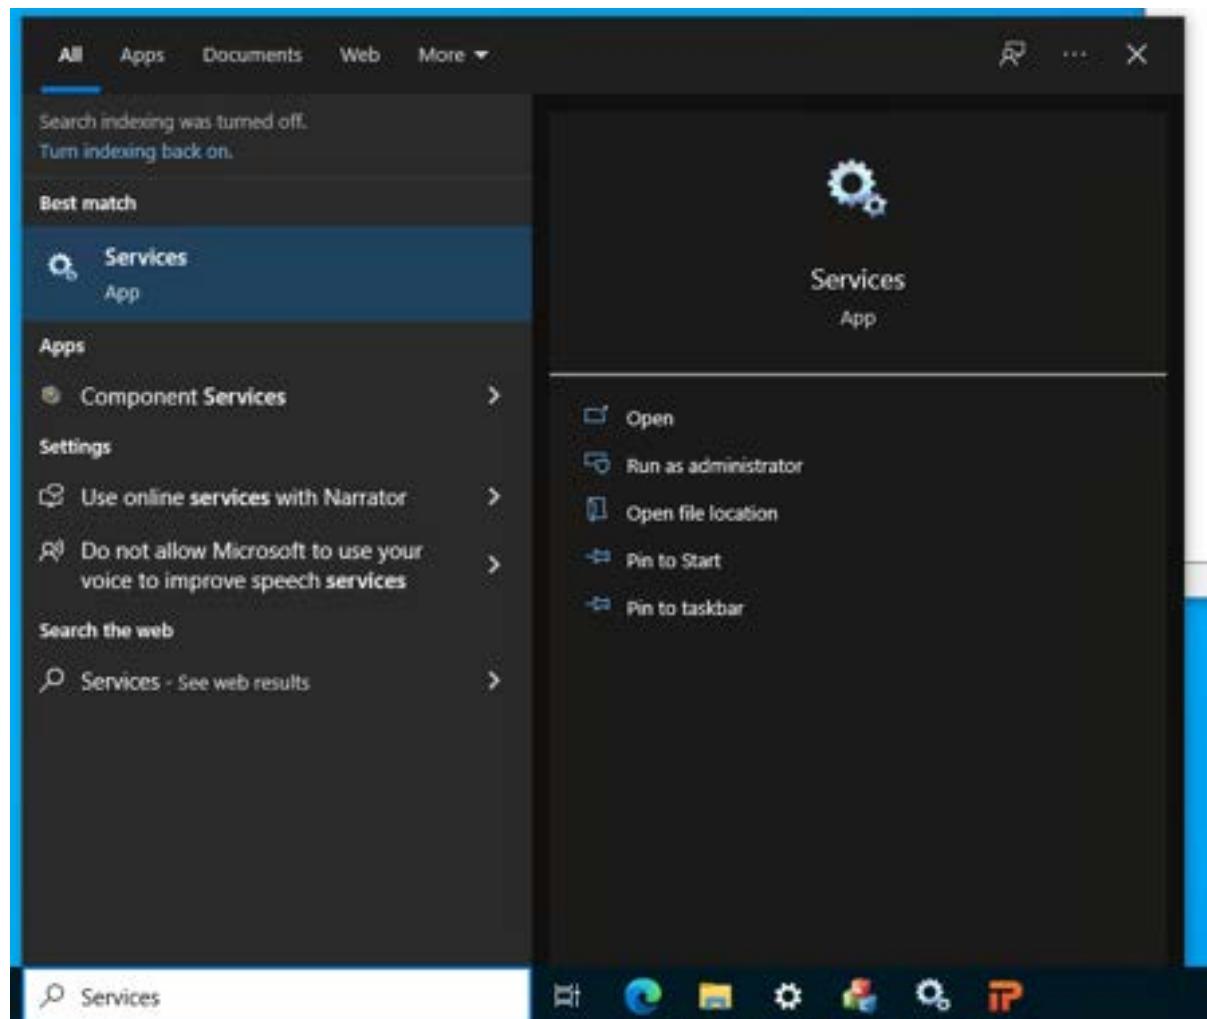

Scroll through and find "Linkly Client".
Right Click and select restart.

Recheck your system tray and you should be able to see the client (indicated by the letter "C") go from Yellow to Green. This means that the client is connected.

Before –
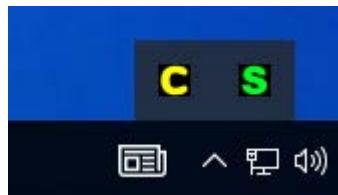

After –
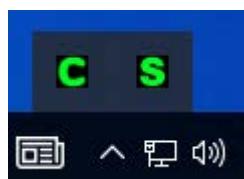

Next,

Go to C:\PC_EFT\DevTools\IPInterface.TestPOS and open *IPInterface.TestPOS* application:

Click *Connect* on the settings pane.
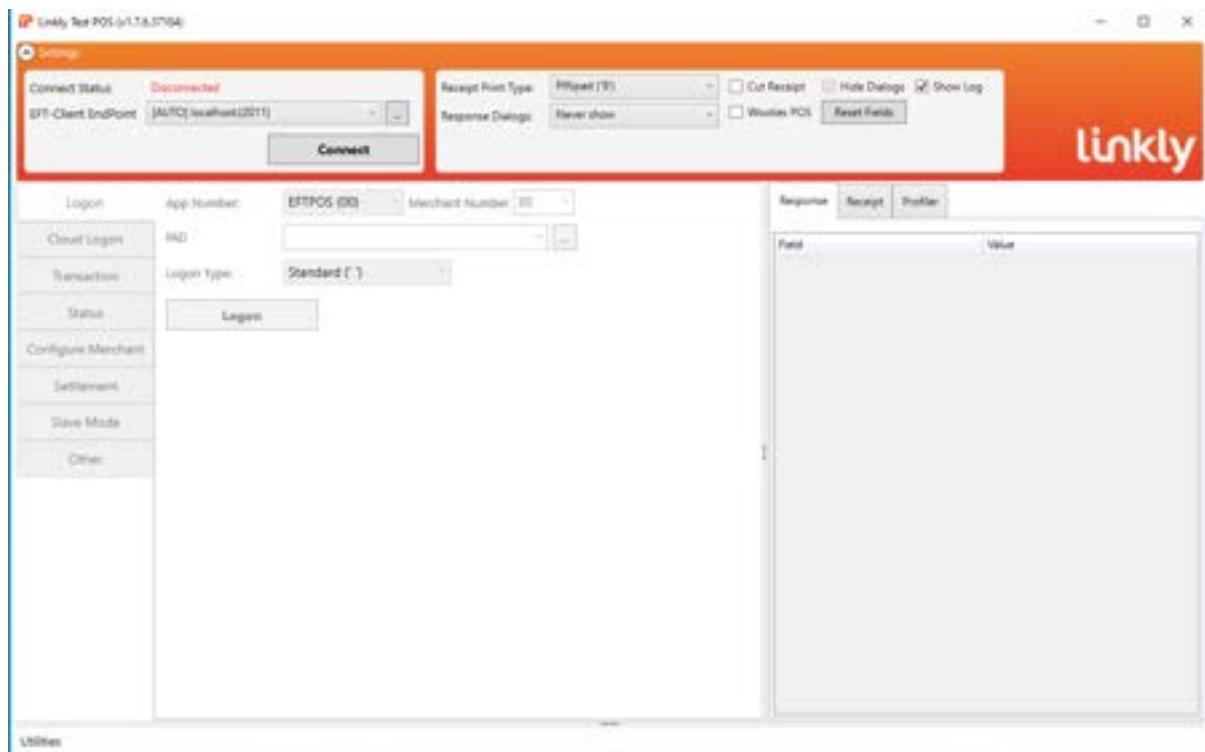

Then click *Logon*:
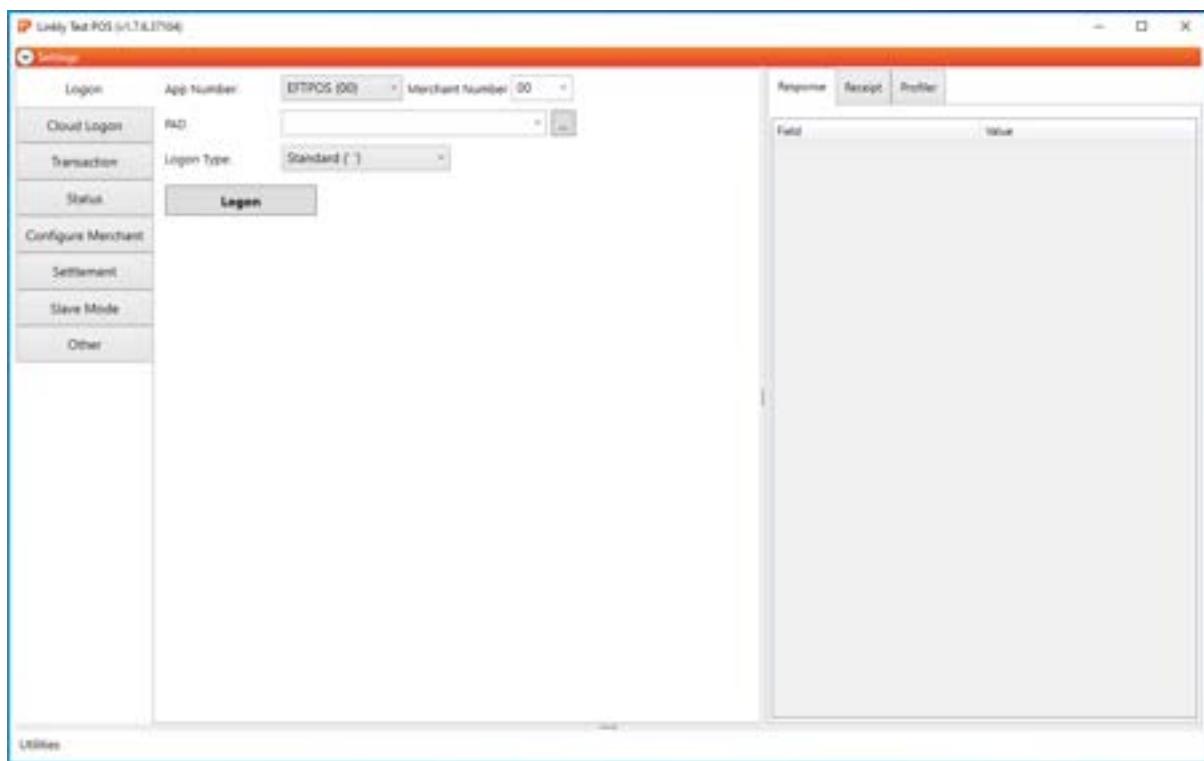

It will display this message:
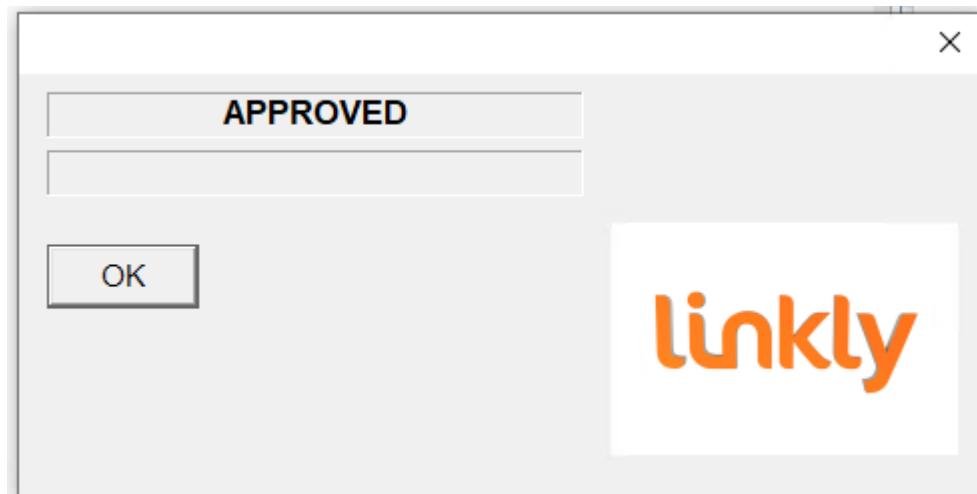

And the Virtual Pin Pad will show you the following:
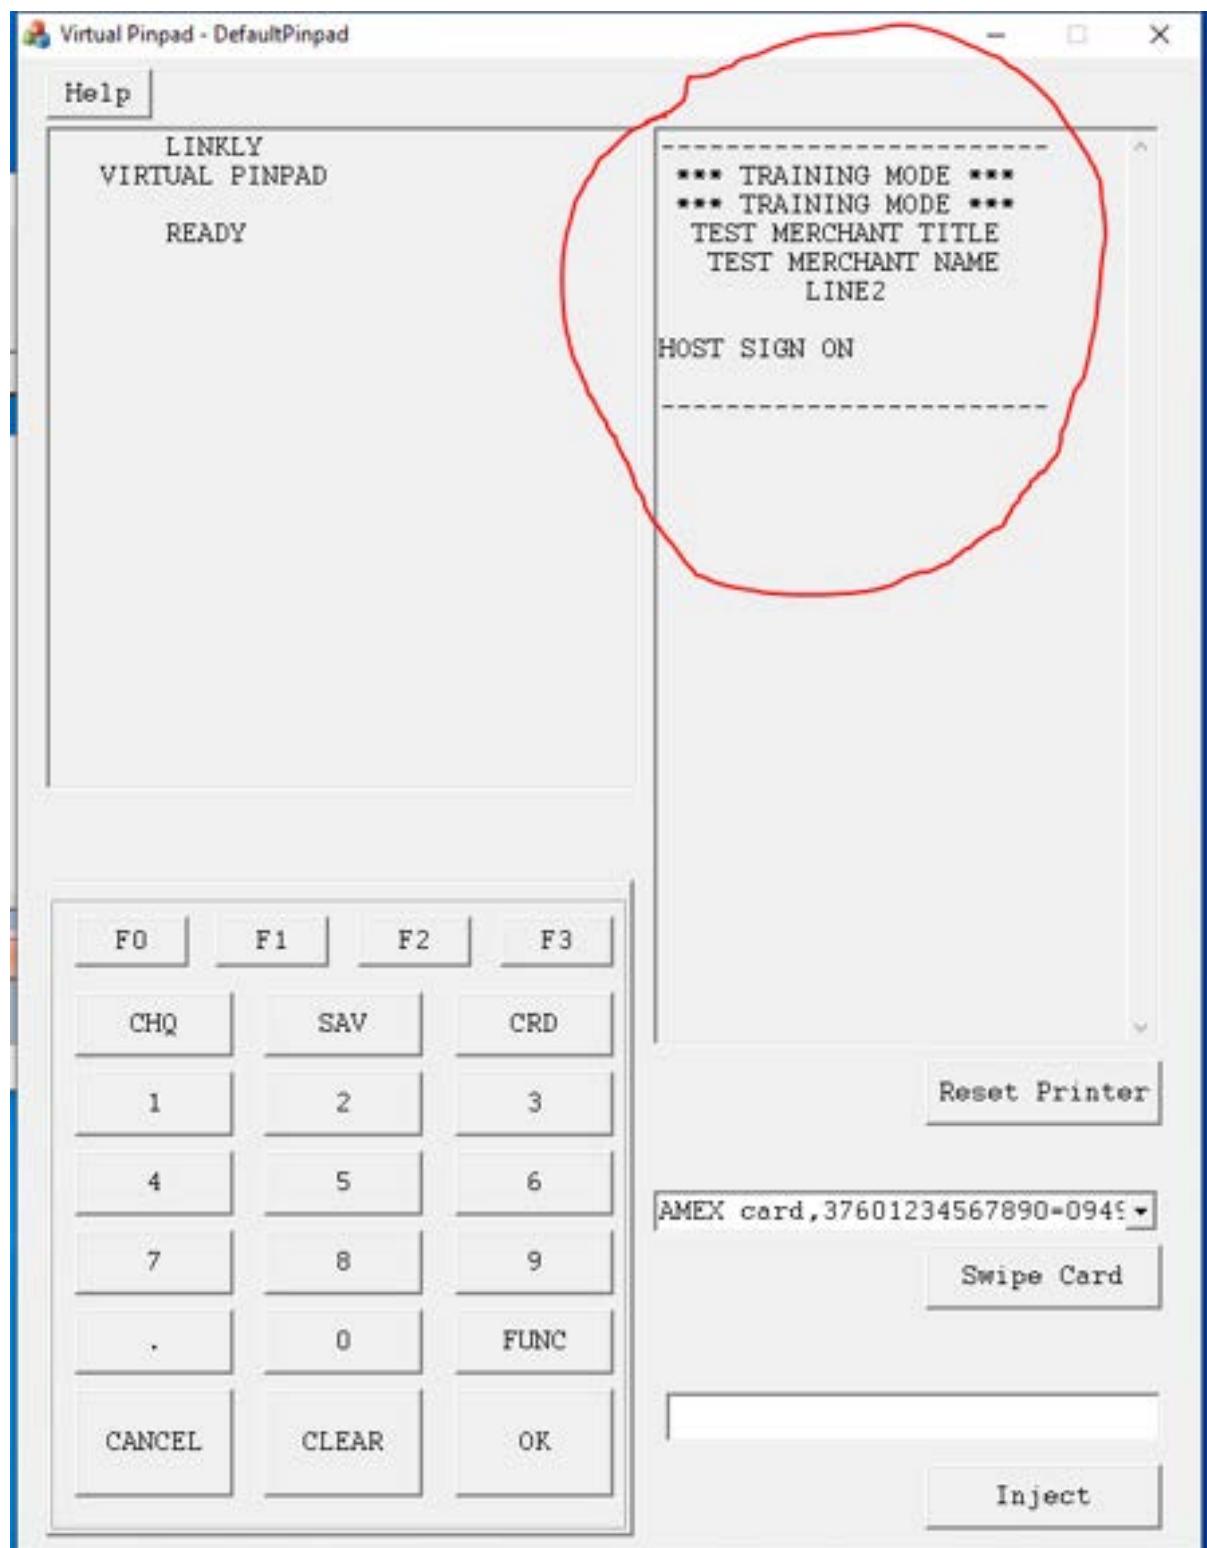

This means you are now connected successfully.

To test a transaction, try the following:

Click 'Transaction' in the Test Pos application's navigation pane and then click Transaction at the bottom:
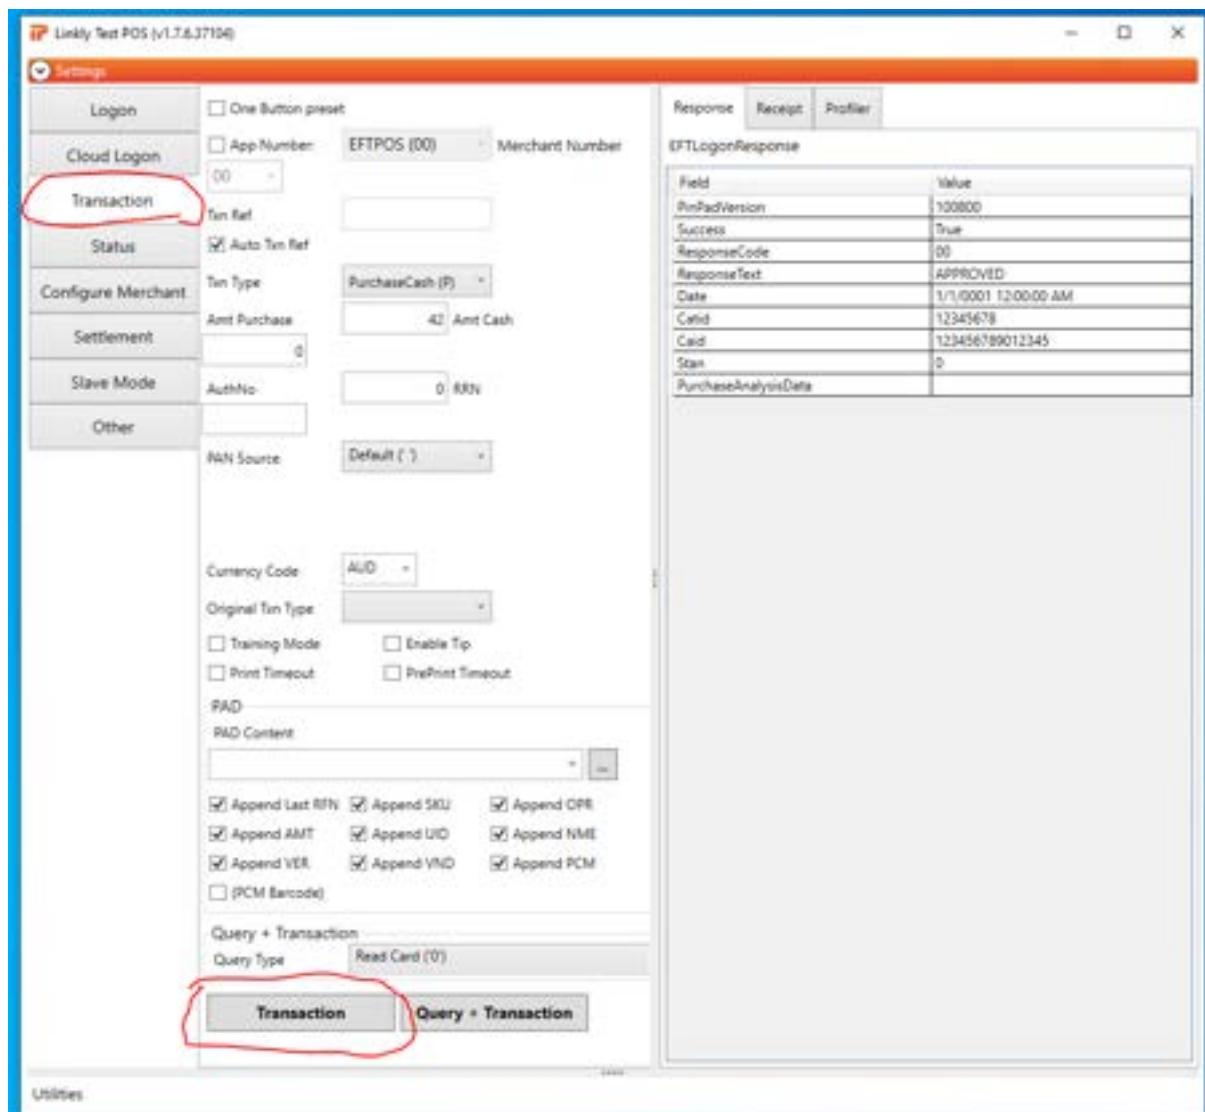

This will send a Transaction request to the Virtual Pin Pad:
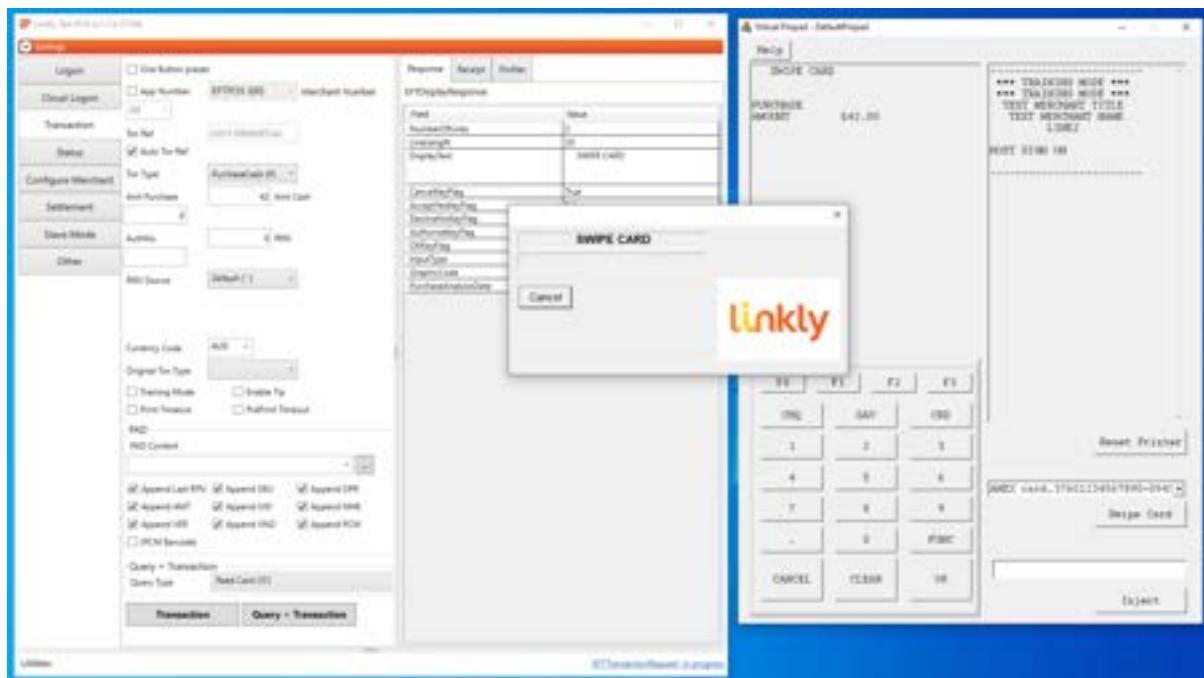

Follow the prompts on the virtual pin pad to compete the transaction:
